AMENDMENTS IN THE SPECIFICATION

Please replace the paragraph beginning on page 10, line 20, with the following:

The process thus passes to step **204**, which illustrates extracting the command name from the message transmitted from the client to the server within the messaging system, and then to step **206**, which depicts a determination of whether the command name is recognized by the system (i.e., whether a class file having a matching name can be located). If the command name is not recognized, the process proceeds to step **208**, which illustrates the system throwing an error signal. New class files may then be dynamically loaded from a predesignated source to accommodate the new command.
